

Regain the Use  
of your Hand and  
Grasp onto **LIFE!**

Experience More **NATURAL**  
Hand Function

NESS  
**H200<sup>®</sup> Wireless**

## Reach for Your Recovery Goals

In addition to helping you regain hand function, the H200 Wireless System may:

- Improve active hand range of motion and function
- Reeducate muscles to function without the system
- Reduce muscle spasms
- Increase local blood circulation
- Prevent muscle loss (atrophy)

# NESS H200<sup>®</sup> Wireless

## Enjoy Your **FREEDOM** and **INDEPENDENCE**

Reaching, grasping, opening and closing your hand are all possible with the H200 Wireless Hand Rehabilitation System.

You can get back to your life and daily activities with the H200 Wireless System which may help you regain function in your hand and wrist if your condition is due to:

- Stroke
- Traumatic brain injury
- Spinal cord injury
- Certain neurological disorders

The advanced-technology H200 Wireless System uses functional electrical stimulation (FES) to deliver mild electrical impulses to activate the nerves that control the muscles in the hand and forearm. Programs customized by your healthcare professional may help you perform daily activities<sup>1</sup> and also reeducate your muscles over time<sup>2,3</sup>.

## Wireless and **SIMPLE**

### 1 Comfortable Orthosis

The lightweight ergonomically designed orthosis is custom-positioned to your forearm and hand to ensure you get precisely the stimulation you need.

### 2 Wireless Control Unit

The small hand held control unit communicates wirelessly with the orthosis to send electrical pulses to the muscles that control hand and wrist function.
